

The Project Village offers a highly effective way for Project Developers to meet with the world's leading solution providers (i.e. the finance and technology community). It is the ideal platform to conduct business in the renewable energy and low carbon market in order to maximize the networking and business opportunities during the four days of the World Future Energy Summit 2012.

The PV offers WFES exhibitors the chance to meet face to face with owners and developers from across the region and beyond in both the public and private sectors

PV Participants include:

- Acwa Power
- NREA
- CSEM-UAE
- European Jordanian Renewable Energy Projects
- New Generation Energy LLC
- Green Land Alternative Energy LLC
- CREDA
- Aya Gao Energy
- Pyrogreen Energy Pvt. Ltd.
- Kawar Energy
- Geosyndicate Power
- Aurum Renewable Power
- Civione
