13:00 - 15:00 | Hall 2, Greenpeace MENA Cinema

Innovation Features

14 - 16 January 2026

10:00 - 16:30 | Hall 1

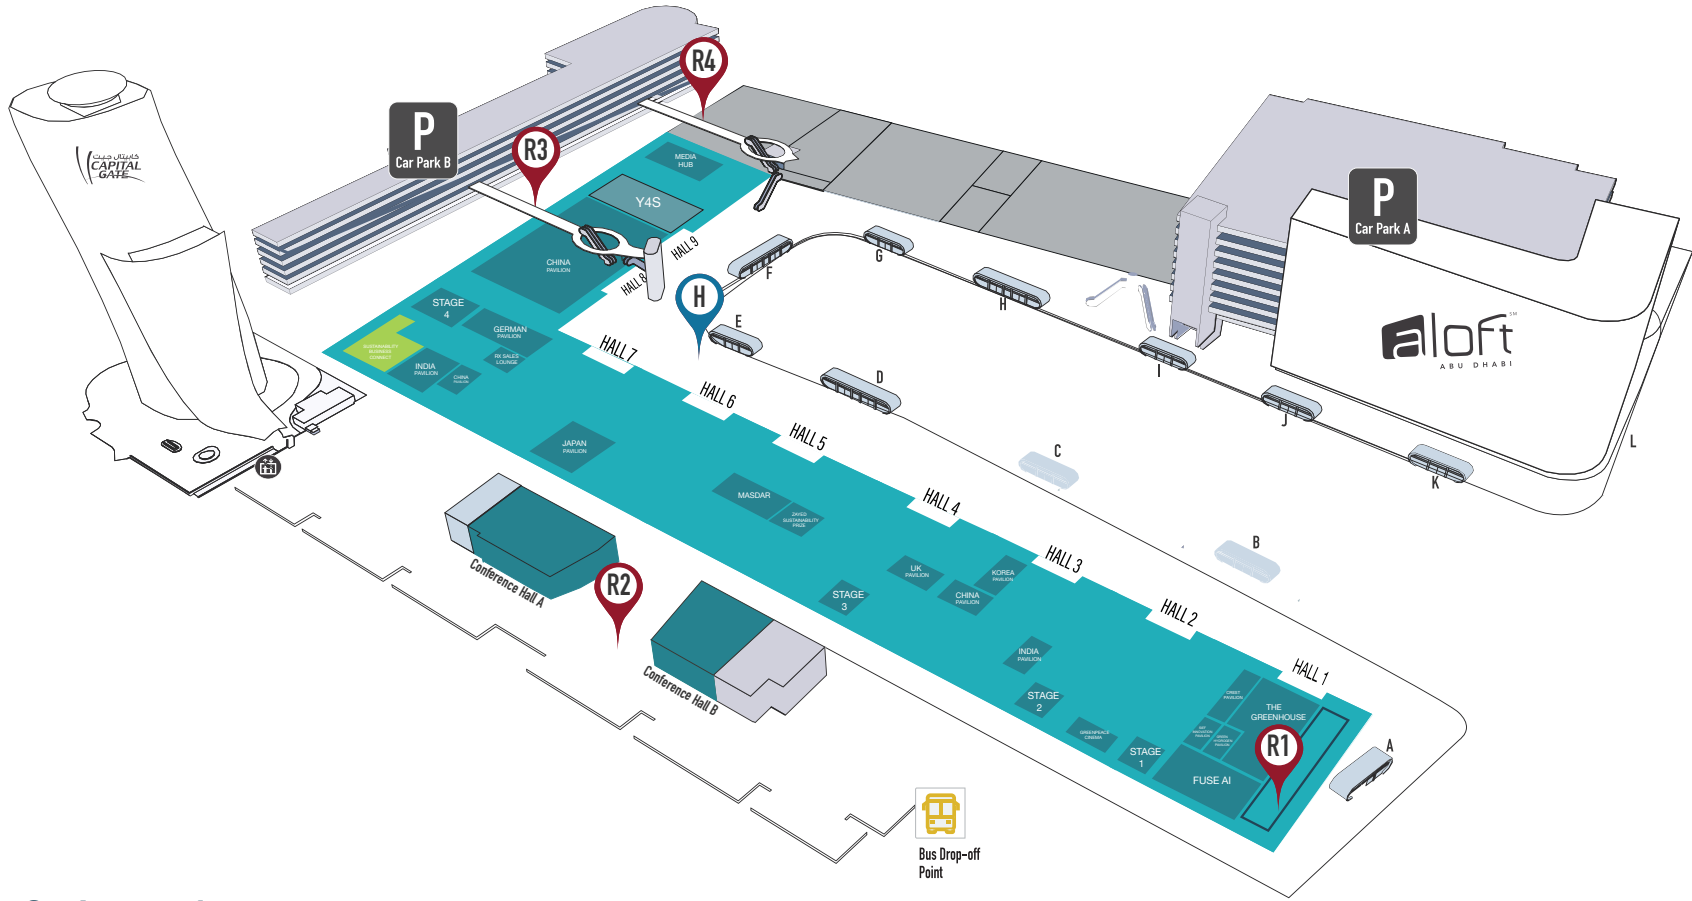

The Climate Innovations Exchange highlights female led, run or founded start-ups and innovators dedicated to tackling climate change and sustainability.

Expanding on our CLIX platform, 2025 will see a dedicated selection of startups that are using AI to tackle challenges focused on clean energy, climate change and sustainability. Similar to CLIX, this will also be female focused.

As the Global Green Hydrogen Market is projected to grow at a CAGR of approximately 15.7% during the period 2024-30, the World Future Energy Summit will once again highlight Green Hydrogen at this year's edition.

Co-Located Events

14 - 16 January 2026

10:00 - 16:30 | Multiple Locations

The MESIA Solar Awards 2026 aims to spotlight the transformation of the sector while continuing to celebrate the exceptional achievements shaping the MENA solar market.

IRENA Innovation Day unites policymakers and innovators to explore how strategic integration of renewables can drive a competitive, decarbonised industry.

AI and climate change take centre stage at Envision Global Technology Day, where global leaders explore how an AI-defined energy system is reshaping the future of sustainable power.

We're proud to host Carbon Forward at the Summit this year to shape the next chapter of high-integrity carbon markets.

Greenpeace MENA joins the Summit with a mini-conference that tackles Islamic climate finance and food & water security.
